LANGUAGE

- English

- Bangla

ABOUT ME

I am a skilled Software Developer with a strong background in development and deployment, seeking a challenging role in a fast-growing organization. My expertise in software development is complemented by a solid foundation in computer science and exceptional communication abilities. I am passionate about creating innovative solutions, driving efficiency, and collaborating effectively to achieve organizational goals.

WORK EXPERIENCE

BD Funnel Builder
Sept 2023 - Running

Software Developer

- BD Funnel Builder is a SaaS product focused on landing page creation and managing online businesses. As the core Software Developer for this project, I have played a pivotal role in its development. BD Funnel Builder operates under its parent company, Online Tech Academy, and features a powerful drag-and-drop website builder tailored to streamline online business management.

- Worked on Online Tech Academy's CRM and LMS projects using NestJS and NuxtJS. Built scalable backend APIs, dynamic frontend interfaces, and implemented features like authentication, course management, subscription handling, and real-time chat.

Nextive Solution
Dec 2022 - Aug 2023

Web Developer

- The company's flagship product is its Learning Management System (LMS). I have contributed extensively by designing and developing numerous LMS web and admin frontend projects, delivering robust and user-centric solutions that align with the company's goals and vision.

PERSONAL PROJECTS

- News Portal's (E-Newspaper) in this project technology used Nuxt.js store manage by pinia frontend done by me.

CONTRIBUTION

- Online CV Maker is a website for creating CVs and resumes, where my contribution focuses on frontend design.
