PARTICIPATED & ACHIEVEMENTS

Robotronics 2.0 RUET-2022(Participate with line follower robot)

UAP Inter Department Programming Contest 2018

I have solved problem in [Codeforces](#), [UVA](#) (2018-2021)

LANGUAGE

- English
- Bangla

ABOUT ME

I am a skilled Software Developer with a strong background in development and deployment, seeking a challenging role in a fast-growing organization. My expertise in software development is complemented by a solid foundation in computer science and exceptional communication abilities. I am passionate about creating innovative solutions, driving efficiency, and collaborating effectively to achieve organizational goals.

WORK EXPERIENCE

BD Funnel Builder

Sept 2023 - Running

Software Developer

- BD Funnel Builder is a SaaS product focused on landing page creation and managing online businesses. As the core Software Developer for this project, I have played a pivotal role in its development. BD Funnel Builder operates under its parent company, Online Tech Academy, and features a powerful drag-and-drop website builder tailored to streamline online business management.
- Worked on Online Tech Academy's [CRM](#) and [LMS](#) projects using NestJS and NuxtJS. Built scalable backend APIs, dynamic frontend interfaces, and implemented features like authentication, course management, subscription handling, and real-time chat.

Nextive Solution

Dec 2022 - Aug 2023

Web Developer

- The company's flagship product is its Learning Management System (LMS). I have contributed extensively by designing and developing numerous LMS web and admin frontend projects, delivering robust and user-centric solutions that align with the company's goals and vision.

PERSONAL PROJECTS

- [News Portal's](#) (E-Newspaper) in this project technology used Nuxt.js store manage by pinia frontend done by me.

CONTRIBUTION

- [Online CV Maker](#) is a website for creating CVs and resumes, where my contribution focuses on frontend design.
